1. Dry As A Bone feat. Slick, Cyra

You get up this morning
You have a weary head
Our world keeps on falling
You need to find some rest

The eagle is flying high
To find a better place
And rise out of ashes
Shine on for another day

Ohh yeah - where will you go
Oh yeah where will you turn
To the angel by your side

You're dry as a bone
You're dry as a bone
When your faith is gone

I know the road is long
When you walk alone
Down the Green Stone Valley
All troubles will be gone

Get down by Red River
You will find a sign
My Love goes on forever
God's good things you will find

2. Got All The Luck

I've got a lucky day
I met you by surprise
We've got a little closer
We haven't tried

A dove is flying over my head
To find my way I haven't had

I've got all the Luck, You got -
All the Luck, to hang out with me

The sun is shining into my eyes
My heart is bleeding a satisfied mind
You are my whiteness
You find your own way
The curtain is falling but not today

I've got, all the Luck...
We got all the Luck

All the Luck to hang out with you
I got all the Luck
When we meet again

Now it's all messed up
Got all the luck,
Now it's all messed up
Got all The Luck, got all the Luck
To hang out with you
Got all the Luck, to meet you again

I've got so lucky - we met one day
Heaven knows - will I see you again

3. **Deadwood 1876** feat. Big Joe Stolle

Looking for the glory rain
Right after the gold rush came
First they burned down the church house
Than they stick their heads - into the dirt

Down in Deadwood
Down in Deadwood
Deadwood 1876

When the gold rush was over
Nothing here was the same
When the devil finds a place
He'll kick you there - right into your face

Down in Deadwood
Down in Deadwood
Deadwood 1876

They murder and they steal
And all the drinking got worse
They shot a man right from his horse
All justice has gone - that day

4. **Western Skyline** feat. Cyra

We will cross the seven bridges
By the moon and the stars across the wild oak
Down by the river we will find our love

Western Skyline - Western Skyline...

*I'm your companion we walk side by side
Along the Western Skyline
We find a place to hide
There is no dead horse will find you
no princess might save you*

We will pass the Red Rock Mountain
By rise with the sun and the heat we will go
Down by the river we will find our love

Western Skyline ...

*You are my whiteness we'll find a way out
Along the Western Skyline
Some stars might fall down
Your angel will guide you
Our Lord will save us*

We will cross the seven bridges
At night with stars across the wild oak
Down by the river we will find our love

Western Skyline ...

*I'm your guidance who will bring you home
Along the Western Skyline the place where
We belong your heart is forgiven
And our souls will find love
Find love - find love
Find love - you will find your love*

Banjo / Back Vocals: Jonathan Ziegler

5. **Early Morning Rise**

One by one and two by two
So the days go bye

*Dream a dream - where we belong
A golden ladder - we have to climb
One last breath - and we'll be gone
In the early morning rise*

A Humingbird sings a song of hope
While the moon still hides
Another lonely star has fallen down
bright in the midnight sky

*Dream a dream - where we belong
A golden ladder - we have to climb
One last breath - and we'll be gone
In the early morning rise*

Nights are cold in this lonesome time
You'll find a place to hide
The ground is shaking
You don't want to fight
But you protect the soul of a man

Dream a dream...

8. **Mystery Of Love** feat. Billy Goodman

You kill the pain
That's hidden inside
Some wounds are deep
Some heal over night
All those dark places
You don't want to fight
But only love - will keep you alive

The mystery of hope
The mystery of time
The mystery of love
Will keep you alive

Your burning flame
You must keep alive
You'll find a way
To reach through the night

The prodigal one
Has found the light
For only love will keep you alive

The mystery of hope...

The mystery of love
The peace of mind
The mystery of love
The peace of mind

E-Guitar - Slide Solo: Billy Goodman

9. Alone with the Blues feat. The Vagrants

We kissed the sky
Dancing through our lives
We felt so high touching the moon
The stars life was fine
Time travels fast nothing seems too far
So young and full of pride
Touching the Moon you are mine

**So don't you - no no - don't you
Don't you - ohh no no - don't you
Leave me alone with the blues**

I try to reach you a thousand times
I can't get through you on the line
This world is upside down
Down under let's get around

**So don't you - no no - don't you
Don't you - ohh no no - don't you
Leave me alone with the blues**

It's when the ferryman came
And there is nowhere to go
But we will meet again
At the end of the road
I got the lonesome blues
On a lonesome day

**So don't you - no no - don't you
Don't you - na na - don't you baby
Leave me alone with the blues
Leave me alone with the blues**

10. Out Of Control

I guess now you are out of control
I haven't heard from you so long
You just keep on hurting my soul
I don't know what's going on

I feel like it's getting out of control ...

*A Jealous heart won't make it better
A broken soul won't make it easy
There is a dark cloud over my shoulder
You know it's a crying shame*

I know it's getting out of control

I know your getting out of control

I want to get you back

Get you close to me - so we can be free

It's getting out of control

I know it's getting out of control

Been long out of control

I want to save your soul

11. Meet Me in Heaven feat. Billy Goodman

Get on board a boat of no return
Traveling on to finally meet again
So how long will you fool yourself
Have you found your way?
But we meet me in heaven one day

Meet me in heaven

When all tears have cried

Meet me in heaven

With those angel eyes

Meet me in heaven

One day - we see the light

Reach out for a helping hand
Take every chance you get
Just start again - we see clearer now
When all has passed away - get on your way
Take every dream you have

Meet me in heaven

When all tears have dried

Meet me in heaven

With those angel eyes

Meet me in heaven

One day we see the light

... Meet me in heaven

With the Lord by our side

Meet me in heaven

One day we see the light

12. This Bound Will Not Be Broken

Dobro / Martin A-Guitar: DobBroMan

13. All I Want Is You feat. Cyra

Don't hide away
From this place that we both found
Just stay today
There is a broken world
It tries to break your heart

But we found each other

And our souls were linked together

All I want is you

This broken heart like we both know

Just want to stay with you

One more time - don't let me go away

From you

I know you feel alone
You have this pain inside you try to hide
Don't hurt me again like you've been hurt
Better don't hurt at all

But we found each other...

All I want is you - just one more night

Don't let me go away - all I want is you...

To stay with you again - with you again

14. When I'm Gone

When I'm gone - there is no turning back
Things are not easy - I must regret
It turns out - to be the best
That I'm gone and not coming back

When I'm gone - erase my love

Find someone else

You will share your heart

When I'm gone farwell my love

Time will change and heal our hearts

When I'm gone - I will leave behind
Forget the pain - washed by the shore
But one day - I might come back
Hold you in my arms - I will not regret

...When I'm gone - farwell my love

Time will change - and heal our hearts

When I'm gone - there is no turning back

It's not easy - I must regret
